I. INTRODUCTION

I, Jonathan Daniel Clements, present myself voluntarily, of sound mind and lawful standing, to this facility in pursuit of immediate sanctuary and legal protective evaluation. I am not here in crisis of delusion or confusion. I am here under active threat.

This document is not personal speculation—it is a lawful record, supported by ecclesiastical oversight, public notary stamps, court receipts, government documentation, and firsthand evidence. I am here to assert my legal rights, protect myself and my beneficiaries, and to initiate lawful recourse in light of the violations committed against me.

II. CREDENTIALS & STANDING

I am not a transient or conspiracy theorist. I am credentialed. I am documented. I am recognized.

Minister, ordained under Universal Life Church Ministries

Currently completing Rabbinic training under a recognized authority

Holder of 120+ certifications across legal, cybersecurity, business, and technical domains

Degree in International Business Management with a minor in Economics

Author of five published nonfiction books available on Amazon; three hold full international distribution

Former employee at Disney Parks, Hershey Park, and Piedmont Airlines—all of which require federal-level background checks

Creator of AMK and QMM, advanced AI and cybersecurity technologies already referenced in national defense and research spaces

Followed and supported publicly and privately by major figures, from intelligence circles to UN affiliates, from whistleblower networks to figures like John Cena—people don't follow fiction

III. ECCLESIASTICAL & TRUST STATUS

I am the lawful Sovereign Executor of ECC-TRUST-JDC-005. This is not a 501(c)(3) gimmick. It is a multi-jurisdictional sovereign ecclesiastical trust. Lawfully constructed, notarized, and lodged into court—acknowledged and partially accepted until interference occurred.

This trust includes over 1700 declarations, dozens of sealed documents, and is reinforced under:

Lex Divina and Canon Law

Public Notary validation

Greenwood District Court date-stamped receipt

Ecclesiastical law under Canon 332, 333, and 129

U.S. Title 18 § 242 — Deprivation of Rights under Color of Law

U.S. Title 42 § 1983 — Civil action for deprivation of rights

UN Declaration of Human Rights - Article 18: Freedom of Religion

Hague Apostille Convention 1961 - Trust law and international recognition

The judge later scribbled out these accepted stamps. He physically removed lawfully lodged documents from the court case—documents that did not pertain to him alone, but to global equity and human

rights. That action constitutes fraud upon the court, obstruction, and a violation of international, ecclesiastical, federal, and trust law.

IV. CHAIN OF EVENTS

This is the reality of what has unfolded:

1. My lawfully registered trust vehicle was towed despite legal documents being submitted.
2. Three citations were stacked against me in one day—an artificial escalation with no injury, no victim, and no commerce.
3. My mother was harassed by a detective on private property, without a warrant or call, demanding ID.
4. A broken window followed a day after I reported a violent parolee. No protection was offered—I was the one criminalized.
5. I was arrested and accused of a warrant that didn't exist in Arkansas. It stemmed from a Florida incident where I fled gunfire.
6. Law enforcement has followed me, driven past my home, harassed me in public, and stalked my presence digitally and physically.
7. Deputies have told me it's "better to drive without plates" than to display my lawfully protected trust plates.
8. The same judge who accepted my trust documents later defaced them. That is not procedural—it is retaliatory.

All of this is verifiable. I have photos. I have video. I have live streams. I have receipts.

V. GROUNDS FOR SANCTUARY & PROTECTION

I have done nothing unlawful.

I have never committed a violent act.

I have never threatened anyone's life.

I have built systems to protect humanity, not exploit it.

I have stood up to powerful structures—through technology, through trust law, through open-source transparency. I've created alternatives to broken systems. And for that, I have become a target. Not because I am unstable, but because I am effective.

I request sanctuary because the very systems meant to protect me are now the systems weaponized against me.

I am a whistleblower.

I am a recognized public figure in global protest movements.

I am a peaceful man.

And I am being harassed, hunted, and defamed for lawful acts of reform.
